ABOUT LUCAPA

Lucapa Diamond Company Limited is an ASX listed diamond miner and explorer with assets in Africa and Australia. It has interests in two producing diamond mines in Angola (Lulo) and Lesotho (Mothae). The large, high-value diamonds produced from these two niche African diamond mines attract some of the highest prices per carat for rough diamonds globally.

The Lulo mine has been in commercial production since 2015, while the Mothae mine commenced commercial production in 2019.

Lucapa has recently acquired the Merlin Diamond Project in the Northern Territory of Australia. It consists of a 24km² mineral lease and a 283km² exploration licence encompassing the mineral lease. The mineral lease contains 11 previously discovered kimberlite pipes in three kimberlite clusters with an existing 4.4 million carat JORC 2012 compliant resource. There are two known diamondiferous kimberlites on the exploration licence.

Lucapa and its project partners are also exploring for potential primary source kimberlites or lamproites at the prolific Lulo concession in Angola, the Brooking project in Australia and the Orapa Area F project in Botswana.

The Board, management and key stakeholders in Lucapa have deep global diamond industry experience and networks all through the value chain from exploration to retail.
