

ASX Announcement

11 July 2018

114 CARAT LULO DIAMOND

- *114 carat diamond is the 11th +100 carat diamond recovered to date from the prolific Lulo diamond field*

Lucapa Diamond Company Limited (ASX: **LOM**) (“Lucapa” or “the Company”) and its partners Empresa Nacional de Diamantes E.P. (“Endiama”) and Rosas & Petalas are pleased to announce the recovery of a 114 carat diamond from the Lulo Diamond Project in Angola.

The 114 carat diamond was recovered from alluvial Mining Block 6. It is the 11th +100 carat diamond recovered to date and the third so far in 2018, further underlining the special large-stone nature of the Lulo diamond concession.

Figure 1: The 114 carat diamond recovered from Mining Block 6 at Lulo

The 114 carat diamond adds to a significant inventory of large diamonds currently held for a later sale by Lulo mining company *Sociedade Mineira Do Lulo*, including those shown in Figure 2 (Refer ASX announcement 5 July 2018).

Figure 2: Selection of large and high value Lulo Specials from the unsold diamond inventory

For and on behalf of the Lucapa Board.

**STEPHEN WETHERALL
MANAGING DIRECTOR**

ABOUT LUCAPA

Lucapa is a growing diamond company with a portfolio of high-quality production, development and exploration assets in Angola, Lesotho, Australia and Botswana. The Company's focus on high-value diamond production is designed to protect cash flows in a sector of the diamond market where demand remains robust.

Lucapa's flagship asset is the Lulo Diamond Project in Angola, which is a prolific producer of large and premium-value alluvial diamonds. Lulo has produced 11 +100ct diamonds to date and is the highest US\$ per carat alluvial diamond production in the world. Lucapa and its Lulo partners continue to advance their search for the primary kimberlite sources of these exceptional alluvial gems, with three drill rigs available in the ongoing kimberlite exploration program.

In keeping with the Company's growth strategy, Lucapa has acquired a 70% interest in the advanced Mothae kimberlite project in diamond-rich Lesotho. The Mothae kimberlite pipe is a high-quality diamond resource located within 5km of Letšeng, the highest US\$ per carat kimberlite diamond mine in the world. Lucapa is constructing a 150 tonne per hour (90,000 tonnes per month) diamond treatment plant, complete with XRT recovery technology, under its Phase 1 development program and is scheduled to commence high-value production at Mothae in H2 2018. A bulk sampling plant has also been refurbished and Lucapa has commenced testing areas of the kimberlite pipe either not included in the JORC resource or where additional sampling is required. Large diamonds including two yellows weighing 89 carats and 25 carats have already been recovered from these areas in the bulk sampling program.

Lucapa is also furthering two exploration projects in known diamond provinces. This includes an extensive exploration program launched at Brooking in the West Kimberley lamproite province in Western Australia to follow up on the discovery of lamproite with high concentrations of micro and macro diamonds. Lucapa is also scheduled to drill its kimberlite targets at the Orapa Area F project in Botswana's Orapa diamond field in H2 2018.

Lucapa's Board and management team have extensive diamond industry experience across the globe with companies including De Beers, Rio Tinto and Gem Diamonds.

Forward-Looking Statements
